Jersey, July 11, 1751.

THIS Day arrived here, in his Majesty's Yacht the William and Mary, his Excellency Lieutenant-General Huske, Governor of the Island; who was received with the greatest Demonstrations of Joy; and the next Day was waited on by the States of the Island, the Mace being carried before the Royal Court; when Charles Lempriere, Esq; the Lieutenant Bailly, addressed him in the following Manner.

SIR,

THE States of his Majesty's Island of Jersey, always unanimous in their Fidelity to the Crown of Great-Britain, come to express their Joy upon your safe Arrival in this Island. Your Visit is an Honour which they have been unaccustomed, for several Years past, to receive from their Governors in Chief; and for which they are truly thankful.

We are highly sensible of his Majesty's constant Goodness to us, and of his Paternal Care for our Preservation: We acknowledge a late Instance of it, by his having appointed for Governor of this Island, a Person of your known Merit and Benevolence, the Effects of which we have already experienced; for which we take this Opportunity to return you our best and most hearty Thanks.

As we are conscious how much you have at Heart the Interest of this Island, we beg Leave to assure your Excellency, that we are most ardently desirous to cultivate and improve the good Understanding which ought to subsist between a Governor and the People of this Island; and that we will do every Thing in our Power to make your Government easy and happy; and we will, with the greatest Chearfulness, concur with you upon all Occasions, in any Measures that may tend to his Majesty's Service, and the Welfare of his Subjects.

We consider with the greatest Pleasure the Prospect of Happiness to the People of this Island, by your being their Governor, and having for Bailly or Chief Magistrate the Earl Granville, who is not more distinguished by his high Rank, than by his superior Merit and generous Disposition, to promote his Majesty's Service and the Interest of his Subjects.

We are fully determined to improve the present Advantages, by cultivating the Peace and Unanimity which now happily reigns amongst us; by Means of which the Publick Service of this Island is at this Time successfully carried on, and that with the Zeal and Concurrence of our present Lieutenant Governor.

We flatter ourselves you will, upon your Return to England, make such a Report to his Majesty of the State of this Island, as will obtain for us what may be necessary for our future Security and Defence.

We request your Excellency to assure his Majesty of our strongest Attachment to his Royal Person and Family; and that we are most firmly determined to preserve, ever inviolable, that Loyalty which our Ancestors have kept unblemished and unshaken at all Times and upon all Occasions; for which they have obtained peculiar Privileges and Immunities, which we now freely enjoy under his Majesty's mild and most auspicious Government.

To which his Excellency returned the following Answer.

Gentlemen,

I Thank you for the Satisfaction you express on Occasion of my Arrival amongst you, as his Majesty's Governor of this Island; and you may always depend on my Readiness to promote the King's Service and your Interest.

Your Dispositions of Loyalty and true Attachment to his Majesty and his Royal House, give me the greatest Pleasure; and I shall not fail, on my Return to England, to acquaint the King therewith, and to make a faithful Report of the State of your Island.

I see with great Satisfaction, Peace and Unanimity reigning amongst you; for the Establishing of which, my Endeavours shall not be wanting; and the Benefit of it you will find, by continuing to apply yourselves to Trade and Industry.

Lisbon, June 29. Since the Return of the Court from Villaviciosa, the King has disposed of divers Civil and Military Employments. His Majesty having taken a Resolution to put several Places of this Kingdom in a good Condition, the Fortifications of which had been neglected during the late Reign, has just taken into his Service Sixteen able Ingineers, mostly French; four of whom are to be immediately sent to Braga, in order to complete some new Works which are to be added to that Place; and the other Twelve are to be sent to Beja, Pontalegre, and Guarda, for the same Purpose; and the necessary Orders are already given for remitting to them, upon their Arrival, such Sums of Money as they shall have Occasion for.

Leghorn, July 6. Notwithstanding the Report that was spread of an Agreement's being entred into between the Republick of Genoa and the Court of France, by Virtue of which the French Troops in Corsica were to reside there four Months longer, yet we are assured, even from Genoa itself, that those Troops are upon the Point of embarking, and that they are all assembled together at St. Fiorenzo for that Purpose. The thirty-nine Turks, who were Part of the Crew of the Tunesian Galliot that was taken by the Neapolitan Gallies, commanded by the Duke de St. Martin, from under the Cannon of the Fort of the Island of Giglio, are arrived here, and are put on board an Imperial Bark, which will sail with the first fair Wind, in order to carry them in Safety to their own

own Country. The Bankruptcies that have lately happened at Turin, Rome, Genoa, Florence, and other Cities of Italy, are computed to amount to no leſs than ſix Millions of Sequins, the Effects of which our Commerce already begins to feel.

Naples, July 8. It is ſaid the King propoſes to erect a Port at Crotone, upon the Coaſt of Calabria, in order to promote and extend the Maritime Commerce of his Subjects, and that the ſame will be immediately begun, in Conſequence of the Orders which have already been given by his Majeſty in relation thereto. The little Squadron we have at Sea have actually drove all the Barbary Corſairs off our Coaſts, at leaſt we have heard of none ſince that Squadron has been out on its Cruize. We have had very violent Storms of Wind, Hail and Rain in divers Parts of this Country for ſeveral Days paſt; particularly by the laſt Letters from Pouille we learn, that there had fallen Hail-ſtones of a moſt ſurprizing Size in that Province, which had done great Damage to the Corn and Fruits, and had untiled many Houſes, and broke great Numbers of Glaſs Windows.

Parma, July 9. Yeſterday Morning the Court ſet out from Colorno for Sala, where 'tis ſaid their Royal Highneſſes propoſe ſpending the Remainder of the Summer. We expect here every Day from Genoa, two very beautiful fine Coaches, which his moſt Chriſtian Majeſty ſends as a Preſent to the Infanta Dutcheſs his Daughter.

Petersbourg, July 9. The Empreſs has ſent Orders to her new Miniſter at the Ottoman Porte, to complain in Form to the Grand Vizier, touching the late Irruptions of the Crim Tartars upon the Frontiers of the Ukraine; and 'tis not doubted but that her Imperial Majeſty will have all reaſonable Satisfaction given her upon that Subject; and the rather, as the Grand Signior has often given her Miniſter the ſtrongeſt Aſſurances of his invariable Reſolution of continuing to live in Friendſhip with all the Chriſtian Powers. The Great Duke is forming a Scheme for paying off all the Debts that have been contracted upon the Dutchy of Holſtein; and to that Purpoſe, has given Orders to the Miniſters of the Council of his Finances, to make out an exact Liſt of all thoſe Debts, with an Account of what Intereſt they bear. The Empreſs has cauſed a conſiderable Sum of Money to be remitted to her Chamberlain Count Panin at Stockholm, in order to enable him to make a brilliant Appearance at the Coronation of their Swediſh Majeſties. There has not as yet been the leaſt Alteration in the Diſpoſition of the Troops of this Empire in Livonia or Finland; and 'tis aſſured that none will now be made till this Court is informed of what Steps ſhall be taken in the Aſſembly of the States of Sweden. Her Imperial Majeſty intends ſhortly to nominate a Perſon to ſucceed the late Count Lacy, in the important Poſt of Field-Marſhal General of the Troops of this Empire; and, according to all Appearance, that Nomination will fall on Lieutenant-General Baron de Lieven.

Genoa, July 10. This Government continues to labour with great Diligence to put the Affairs of the Bank of St. George upon a good Footing, notwithſtanding which their Notes are ſtill at 25 per Cent. Diſcount. M. de Chauvelin, the French Miniſter Plenipotentiary to this Republick, who had been obliged, by contrary Winds, to ſuſpend, for ſome Days paſt, his Voyage to Corſica, put to Sea on Thurſday Morning laſt, with a fair Wind for that Iſland.

Prague, July 17. Field Marſhal Prince Lobkowitz is upon his Departure for Hungary, in the mean while he is gone to paſs a few Days at a Country Seat in the Neighbourhood of this City. The three Regiments which compoſe this Garriſon, as well as thoſe quartered upon the Frontiers of Saxony and Sileſia, have received Orders to march for the Camp which is forming in the Neighbourhood of Kuttenberg. The Troops diſtributed upon the Frontiers of the Upper Palatinate and of Auſtria, are ordered to aſſemble at the ſame Time at Pilſen, where they are to encamp by the Beginning of next Month.

Franckfort, July 18. On Wedneſday laſt the Elector of Mayence ſet out for Schwetzingen, in order to ſpend ſome Days with the Elector Palatine, and at the ſame Time to pay a Viſit to Prince Henry of Pruſſia, who arrived there on Sunday laſt. We learn from Fribourg in the Briſgow, that the Deputies of the States of Swabia have been aſſembled there ever ſince the 5th Inſtant, to deliberate upon the Demands which have been made on the Part of the Empreſs Queen, and other Affairs of Importance. The laſt Letters from Thuringia ſay, that the Princeſs Auguſta Dorothea, Widow of Prince Anthony of Schwartzbourg Arnſtad, and Daughter of Duke Anthony Ulrich of Brunſwick, died on Sunday laſt at an Eſtate which was aſſigned her for her Dower, in the 85th Year of her Age.

Bois-le-duc, July 28. Yeſterday the following melancholly Affair happened in the Neighbourhood of this City: A Bark belonging to Ammelrooy, having thirty three Perſons on board, amongſt whom were only two Men, ſailed from hence in the Afternoon, and, before ſhe got half Way to Ammelrooy, met with as violent a Storm, perhaps, as has been known in the Memory of Man; which over-ſet the Bark, notwithſtanding all the Care and Precautions of an exceeding good Pilot; by this unhapyy Accident eleven of the Women were drowned. The reſt, by the Activity and Preſence of Mind of the Pilot, with the Aſſiſtance of the two Men, were got on Shore, but there are very little Hopes of the Recovery of ſeveral of them. The Bodies of thoſe who were drowned, and the Effects that were ſaved belonging to them, were brought back here the ſame Evening, and lodged in a Houſe in this City; and this Morning they were all conveyed to Ammelrooy, after having been inſpected by our Officers of Juſtice.

Whitehall, July 27.

DR. *JAMES*'s Powder for FEVERS, and other Inflammatory Diſtempers, publiſhed by Virtue of his Majeſty's Royal Letters Patent, will remove (as has been experienced in many thouſand Caſes) any continual acute Fever in a few Hours, though attended with Convulſions, Light-headedneſs, and the worſt Symptoms: But if taken in the Beginning of a Fever, one Doſe is generally ſufficient to perform a Cure*.

It is likewiſe a moſt effectual Remedy for all internal Inflammation, Pleuriſies, Quincies, acute Rheumatiſms, and the Lowneſs of Spirits, and Uneaſineſſes proceeding from ſlow and latent Fevers, which are generally miſtaken for Vapours and Hyſterics; and a ſingle Doſe remarkably ſtops the Progreſs of a Cold, and certainly prevents the ill Conſequences ariſing from that very common Diſorder, the Source of almoſt all Diſtempers.

Theſe Powders are ſold only by J. Newbery, at the Bible and Sun in St. Paul's Church-yard, over-againſt the North Door of the Church, at 2 s. 6 d. the two Doſes, with good Allowance to thoſe who buy them for charitable Uſes, or to ſell again.

N. B. Attendance is given by Mr. Newbery or his Agents at the Amſterdam Coffee-houſe near the Royal Exchange, every Day from Twelve till Two, to receive Orders for Exportation.
